

## ENVISIONRX OFFERS A VISIBLY DIFFERENT APPROACH TO PHARMACY BENEFITS

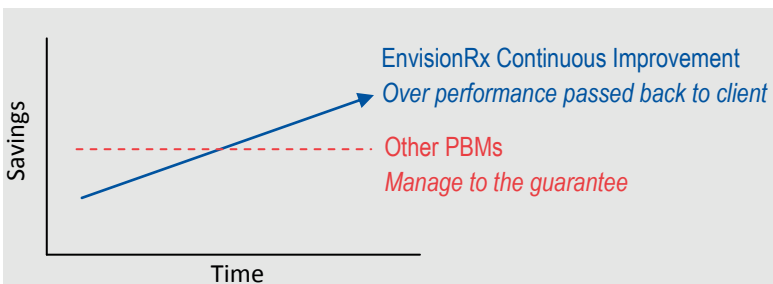

### HELPING CLIENTS SUCCEED

EnvisionRx is a different kind of health care company with a visibly different approach to managing pharmacy benefits. We help plan sponsors give their members the prescription coverage and service they deserve. We are fully integrated, owning all of the programs and tools we provide. This gives us the flexibility and efficiencies to save our clients money and help people, at all stages of life, get the medicines they need to feel better - at prices they can better afford.

Being a large national provider helps deliver the pricing our customers need, but being big isn't the only thing that makes Envision better. Being nimble, proactive, fair and easy to do business with make us better. We pride ourselves on delivering excellent service and a competitive financial offer. We provide fresh ideas, listen to our clients and members, and try to make a positive difference – every day.

Rebates and trend cost management are just some of the ways that PBMs can create overall value. We focus on total cost and continuous improvement. We deliver the best bottom line by optimizing all aspects of the prescription management process—from plan design, to member communications, pharmacy channels, formulary management and clinical care programs. With Envision, plan sponsors can confidently manage their business, not just discount percentages and rebates.

We provide all the tools needed to help plan sponsors and members achieve their cost and quality of life goals from pharmacy benefit management services and technologies, to savings programs, pharmacies, insurance products and clinical program. Because we own all of the components needed for complete end to end integration, we have the unique ability to tailor programs, systems and plan designs to meet the needs of our clients. Being nimble equips us to support all types of members and quickly make changes in ways other cant.

Envision has the flexibility to tailor programs to meet the needs of my clients. I prefer the pass-through pricing model. My clients know what they are paying for and appreciate that the rebates are paid at point of sale.

## WHY EMPLOYERS CHOOSE ENVISIONRX:

### Bottom-Line Impact

- Commitment to pass-through pricing
- Full disclosure audit rights
- POS rebates
- Straightforward contract terms & definitions

### Operational Flexibility

### On-going Insights

- Improved analytics for data-based decision making
- New leadership & seasoned account management
- Clinical, regulatory and operations experts

### Transparent Performance

- Clear, consistent communication
- Ability to audit against performance guarantees

## OWNING ALL OF THE PIECES MATTER

As an organization, we have been thoughtful about creating a prescription benefits focused health care company with true operational flexibility. We think of ourselves as a collection of four business units and one patient care center of excellence. These include our PBMs, Pharmacies, Insurance and Savings with a center of excellence for clinical and patient care.

<b>ENVISION<sub>Rx</sub></b>	PBM offering flexible options for plan sponsors of all sizes.
<b>MEDTRAK<sub>Rx</sub></b>	PBM for small to mid market employers & hospice providers.
<b>LAKERSOFTWARE</b>	PBM technologies for claims adjudication.
<b>ENVISIONPHARMACIES</b>	Mail, Specialty & Compounding.
<b>ENVISIONINSURANCE</b>	Individual & Group Medicare Part D Plans.
<b>ENVISIONSAVINGS</b>	Rx discounts for under/uninsured.
<b>DESIGN<sub>Rx</sub></b>	Discounts & coordination for fertility drugs.
<b>ENVISIONCARE</b>	Patient Care Center for Clinical & Member Engagement.

For many years, Envision has been providing clinical and member engagement value and with our Patient Center for Clinical and Member Engagement, we are in a better position to explain and report on the value we provide to our clients.

EnvisionCare not only focuses on the technical side of benefit design (deductibles, copays, tiering) we know that another key element to driving

desired health benefits and economic outcomes is better member engagement. We partner with our clients to deliver clinically sound programs that drive behavioral change.

For example, programs like our new maintenance drug program with a preferred network of Rite Aid, Walgreens and EnvisionMail provide accessible convenience and improved member adherence at a lower cost.
